

AGENCY:

USDA Forest Service

MODEL:

Raven

YEAR OF COA:

2007

STATUS:

Expired

LOCATION:

Missoula, Montana

DESCRIPTION OF USE:

“Determine the value of small UAS thermal camera for gathering intelligence on life and property threatening wildland fires. The conditions are heavy smoke and no manned aircraft can fly.”

During a phone interview, they said that these drones were for an “initial evaluation” but that they are now “actively looking into what the program could be in the future.”
